## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 117-236 are generic to a plurality of disclosed patentably distinct species comprising the species defined by the formula of claim 117. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. The examiner respectfully requests that the elected species be explicitly defined in terms of the variables of the formula of claim 117.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
